

# Expectations vs. Reality

- several days
- face to face
- previous technical team + business representer
- get the repository few days before meetings
- get the repository access
- short email with setup instructions
- sometimes group in Slack/Skype/Hipchat
- online communication

# When is it important to know the whole stack before handover/interview?

- You're a newbie in one of the tech or in a whole ecosystem.
- You won't have a technical lead on the project.
- Outsource — there is no time for anything.
- You've heard “React” :)
